

CogAT – ‘The Cognitive Abilities Test’ is a standardized group – administered reasoning and problem-solving assessment, intended to measure the acquired thinking and problem-solving abilities of the students.

The CogAT test comprises of 3 sections known as batteries: the Verbal Battery, the Quantitative Battery and the Non-Verbal Battery. Though scores are calculated separately for each battery but they can be administered either separately or together. CogAT is a highly competitive test and thus should not be taken lightly. Thorough preparation is required to ensure that your child performs his/her level best which will help in accurate evaluation of their performance.

We provide one on one virtual tutoring for CogAT test prep, if you are interested please send email to register@tutorified.com
