

Name _____

Date _____

1. Divide, and then check using multiplication. The first one is done for you.

a. $71 \div 20$

Check:

$$\begin{array}{r} 2 \quad 0 \quad \overline{) 71} \\ - 60 \\ \hline 11 \end{array} \quad \text{R } 11$$

$$20 \times 3 = 60$$

$$60 + 11 = 71$$

b. $90 \div 40$

c. $95 \div 60$

d. $280 \div 30$

e. $437 \div 60$

f. $346 \div 80$

2. A number divided by 40 has a quotient of 6 with a remainder of 16. Find the number.
3. A shipment of 288 reams of paper was delivered. Each of the 30 classrooms received an equal share of the paper. Any extra reams of paper were stored. After the paper was distributed to the classrooms, how many reams of paper were stored?
4. How many groups of sixty are in two hundred forty-four?

Answer Key

1.
 - a. Answer provided
 - b. 2 R10; accurate check shown
 - c. 1 R35; accurate check shown
 - d. 9 R10; accurate check shown
 - e. 7 R17; accurate check shown
 - f. 4 R26; accurate check shown
2. 256
3. 18
4. 4
