| Fractions also use a hyphen wh | en they are used as a modifier. | |
| Fractions also use a hyphen wh Example: 1/2 one-half f either the numerator or deno | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added | |
| Fractions also use a hyphen whee Example: 1/2 one-half f either the numerator or deno Example: 10/22 ten to | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added | |
| Fractions also use a hyphen when Example: 1/2 one-half If either the numerator or denote that an s is added to the decomposition. | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- enominator when the numerator is more than one. | |
| Example: 1/2 one-half f either the numerator or deno Example: 10/22 ten to Note that an s is added to the de- | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- enominator when the numerator is more than one. as words using hyphens. | |
| Fractions also use a hyphen when Example: 1/2 one-half of either the numerator or denotes ample: 10/22 tentom of the decorate | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- nominator when the numerator is more than one. as words using hyphens. F) 2/9 | fifths |
| Fractions also use a hyphen when Example: 1/2 one-half of either the numerator or denotes a second of the description of the de | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- enominator when the numerator is more than one. as words using hyphens. | fifths |
| Fractions also use a hyphen when Example: 1/2 one-half If either the numerator or denote that an s is added to the description. Part II. Write the fractions A) 1/3 B) 1/8 | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- nominator when the numerator is more than one. as words using hyphens. F) 2/9 | fifths |
| Fractions also use a hyphen when Example: 1/2 one-half If either the numerator or denote Example: 10/22 tentom Note that an s is added to the december of the fractions of the december of the fractions of the december of | en they are used as a modifier. ninator is hyphenated or both, then no additional hyphen is added venty-seconds 33/75 thirty-three seventy- enominator when the numerator is more than one. as words using hyphens. F) 2/9 G) 8/12 | fifths |

Name:

| Hyphens play an important role in writing numbers. Almost all numbers from 21 through 99 have a hyphen when they are written as a word. Only numbers that end in a zero do not have a hyphen. Example: 37 thirty-seven 80 eighty Part I. Write each number as a word using a hyphen where necessary. A) 73 seventy-three F) 19 nineteen B) 55 fiffy-five G) 36 thirty-six C) 22 twenty-two H) 94 ninety-four D) 49 forty-nine D) 68 sixty-eight Fractions also use a hyphen when they are used as a modifier. Example: 1/2 one-half If either the numerator or denominator is hyphenated or both, then no additional hyphen is added. Example: 10/22 ten twenty-seconds 33/75 thirty-three seventy-fifths Note that an s is added to the denominator when the numerator is more than one. Part II. Write the fractions as words using hyphens. A) 1/3 one-third F) 2/9 two-ninths B) 1/8 one-eighth G) 8/12 eight-twelfths C) 1/15 one-fifteenth H) 12/23 twelve twenty-thirds D) 3/4 three-fourths D) 30/72 thirty-seventy-seconds Example eighty-sevenths E) 5/6 five-sixths D) 30/72 thirty-seventy-seconds | | | Nam | e: | Key | | | | |
