

Name _____

Deciding what career you want to have is a big decision. Different careers require different temperaments and different levels of education. Which career is right for you?

Choose one of the careers pictured below that interests you. If you are already interested in a particular career that is not listed below, you may choose to research that. Use a computer to find up-to-date information about it. Consider the following questions:

- What kinds of people tend to have this job?
- What kind of education do you need?
- What kind of salary can you make?
- Describe a day in the life of this profession.
- Find interviews or articles written by individuals in this line of work. What do they say about it? What advice do they give?

When you have completed your research, use a computer to type your report.
