

Answer Key: Answers may vary.

Name: \_\_\_\_\_

You are having a surprise birthday party for your best friend. You don't have enough time to make the cupcakes, so you ask your little brother to make them for you. In the blank space below, write instructions explaining how to make cupcakes. Use the pictures to help you. Try to give as much detail as possible. Write the instructions in sequential order.

First gather the ingredients you will need to make cupcakes. Next mix the ingredients together in a large bowl. After that, pour the cake mix into a cupcake baking sheet. Place the pan in the oven and let them bake. Take the cupcakes out of the oven and wait for them to cool. The last thing you do is put icing on the cupcakes.
